southern CROSS

presented by  openwaterplanet

Race Information and Safety Plan for Open Water Swimming

Course

The race starts in the water at Lynn Hall Park, Fort Myers Beach. Athletes for 2.5k races will do 2 laps clockwise around a 1250 mtr rectangular course, while others for the 5k races will do 5 laps around the same course. For the start, a rope will be stretched out between 2 anchored boats as swimmers will grab the rope with 1 hand while in approximately 8 feet of water. The finish line will be a tower structure erected on the beach with a 12' Finish Line banner stretched across the structure. To finish, the swimmers will run up onto the beach and cross the line under the banner. The course is marked with large Orange buoys on each of the corners as well as smaller orange buoys along the length of the course.

Swimmer and Race Instructions

1. All registered swimmers will report to the Check In Tent and have an assigned number stamped on each upper arm and shoulder area and both wrists.
2. All swimmers will be called down to the water's edge for a "Roll Call". There they will be briefed and directed to follow the Safety Plan prior to the start at the Pre-Race meeting.
3. Once swimmers are directed to enter the water and proceed out to the starting area they will be alerted to a 1 minute countdown which they will position themselves on the "start rope". The race will then start after the 1 minute with 1 long horn.
4. Swimmers must pass the outside of all 4 corner buoys; therefore all buoys will be on the swimmers Right shoulder. You may swim on either side of the smaller intermediate buoys that are along the long sides of the course.
5. At each corner boat an official and volunteers will call off and mark down the swimmers numbers in an effort to track the swimmers and their laps. Any of these corner boats can offer a swimmer assistance if they need to exit the race.
6. At the end of the last lap swimmers will head into shore and run through a finish line chute and cross the Finish Line under the banner.
7. There will be no feeding stations.

8. Swimmers having difficulty on the course are instructed to wave their arms and signal for assistance from any of the spotters and lifeguards on PWCs and the safety and patrol boats on the course. All swimmers that check in at the start of the race must report DNF at the Check In area if they leave the course at any time other than the finish line.

9. A designated First Aid Station will be set up near the main pavilion a tent with the First Aid Station will be equipped with basic first aid supplies along with Supplemental Oxygen. An ambulance will be stationed on site, in the parking lot. The closest hospital is Lee Memorial Health Park 9.8 miles away (within 20 minutes) and maps will be available at the first aid station. 2

Escort Crafts / Kayaks

6 - 8 Spotter Crafts (Supplies for each vessel, rescue tube, whistle, orange flag. Primarily 8 - 10 Lifeguards along with local paddlers will be assigned to the course and will paddle and scan the swimmers within their zone of protection.

1. Paddle back and forth for Zone Coverage to check on individual swimmers.
2. Recognize a distressed swimmer – Swimmer asking for assistance, waving arms or swimmers that display low, slow body position, as well as watching for swimmers who are constantly rotating to a back float position.
3. If the distressed swimmer requires assistance, the kayaker will approach the swimmer bow first. If the swimmer requires floatation, then swimmer should hold on to the bow or grab bow loop or toggle. Drift with swimmer until he/she is either pulled from the course or returns to shore on their own (the swimmer will be considered disqualified – DQ- if they hold on and seek assistance). The escort craft will call the check in area to report the swimmer's name and number.
4. If distressed swimmer needs to be rescued and pulled off the course, then the Escort Craft should wave orange flag or paddle and blow whistle (series of 2 long blasts) to alert the Safety Rescue boats. If the swimmer goes unconscious the guards in the kayaks will support swimmer with the rescue tube and provide open airway and or rescue breathing and the staff on paddleboards will use their board to support the unconscious swimmer. The Safety Rescue boat will notify the Command Center of the swimmer's condition and transport to a drop location on shore.
5. As the lead packs of swimmers finish the race the kayaks will then pick up and paddle with the "lone swimmers" and follow them around the course.

Safety Rescue Boats

1. 5 Marine Emergency Response Boats with Fire / Rescue staff will be patrolling the course at all times. Other boats (course officials, corner and media boats and wave runners), can also be considered a Rescue boat if needed and are close enough to respond and get a swimmer safely on board.
2. Marine Emergency Response Boats will be patrolling the course perimeter to act as spotters for kayaks / distress swimmer and will attend to swimmer / rescue situations. All boats should be attentive to swimmers and escort kayaks that might have a "swimmer in distress" situation.
3. Marine Emergency Response Boats will radio if transporting distressed swimmer to beach area and will be met with EMS staff for treatment on beach. If swimmer is unconscious, then the Safety Rescue

boat will provide ALS to swimmer and transport to the US Coast Guard Station where an Ambulance will be waiting.

Patrol Boats

1. 2 local law enforcement task force boats will be patrolling the Gulf Side of the course perimeter to keep recreational boat traffic at least 100 yards off the course and watching the kayaks and Safety Rescue boats who might have a distressed swimmer situation.
2. Patrol Boats and Ranger boats on will aggressively approach any recreational watercraft that is heading toward the course and "wave them off" the course buoys.

Weather Contingency

Lightning or dangerous conditions prior to the event – Seek safe shelter, We will observe the National Weather Service 30/30 Lightning Policy (within 30 sec you hear thunder after lightning strike is observed you wait 30 minutes). A minimum 30 minute warm-up and check in will be held prior to the start of the race. RACE DIRECTOR, SAFETY COORDINATOR, and HEAD REFEREE, will make final call as to the start of the race based on weather and course safety: which includes all watercraft, (safety, turns, feed, and officials) being in place. Lightning or dangerous conditions during the event – As determined by Race Director, Safety Coordinator and Head Referee the course will be cleared. A "CLEAR THE COURSE" call will be made with a series of 3 long blasts on air horns or whistles, waving of the Yellow Flags as well as announced over all radios. Swimmers will head directly into shore area, and seek immediate shelter, closest to their shore arrival. Immediately as soon as conditions are acceptable, ALL competitors should seek any meet official, and inform them of their safe arrival to shore. All boats are to remain on the course until ALL swimmers have made it to shore or picked up by any of the course, safety and patrol boats. Any boat that picks up a swimmer should immediately notify race officials through the Command Center, with the name/number of their athlete. If the race is ruled incomplete, the day and time of the restarted race will be determined by the Head Referee, Race Committee and Race Director.
