Roof Application and Permitting Guide

This guide is intended to help you submit the required application and documents to receive a Lee County building permit.

The guide includes these sections:

1. [Permit Description](#)
2. [Complete your general permit application](#)
3. [Attach the required and conditional documents to your application package](#)
4. [Understand the review process and track your application](#)
5. [Receive your permit](#)
6. [Pay your fee\(s\)](#)
7. [Request the necessary inspection\(s\)](#)
8. [Obtain your Certificate of Compliance or Certificate of Occupancy](#)

1. Permit Description

A Roof permit is required to replace, repair or re-cover a roof on an existing structure. Tile roofing requires engineering approval, if being placed on a structure that didn't previously have tile. Houses built before 1995 with a value of \$300,000 or more may have additional requirements.

Each permit may require multiple work activities; therefore, refer to the applicable codes, which may include but are not limited to:

- [Florida Building Code 8th Edition \(2023\)](#)
- [Lee County Land Development Code](#) Chapter 6

Need Help? Contact us @ PODPlanREV@leegov.com with your detailed questions.

All applicants are encouraged to use Lee County's eConnect online permitting system to apply for permits. **CONTRACTORS ARE REQUIRED TO USE ECONNECT.**
